PROFESSIONAL SUMMARY

Highly skilled **Java Developer** with over [Number] years of experience designing, building, and deploying robust, scalable, and secure enterprise web applications. Proven expertise in **Spring Boot, Microservices architecture, and Cloud integration (AWS)**. Adept at optimizing database performance, implementing CI/CD pipelines, and collaborating in Agile environments to deliver high-quality software solutions.

TECHNICAL SKILLS

- **Languages:** Java (8/11/17), SQL, HTML5, CSS3, JavaScript
- **Frameworks & Libraries:** Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, JUnit, Mockito
- **Architecture & Web Services:** Microservices, RESTful APIs, SOAP, GraphQL, System Design
- **Cloud & DevOps:** Amazon Web Services (AWS EC2, S3, RDS), Docker, Kubernetes, Jenkins, Git, GitHub Actions
- **Databases:** PostgreSQL, MySQL, Oracle, MongoDB, Redis
- **Tools & Methodologies:** Agile/Scrum, Maven, Gradle, Jira, IntelliJ IDEA

PROFESSIONAL EXPERIENCE

Senior Java Developer | Company Name, Location Month Year – Present

- **Led the migration** of a monolithic legacy application into a **Spring Boot microservices architecture**, improving system scalability by **40%**.
- **Design and developed 15+ secure RESTful APIs** utilizing Spring Security and OAuth2, handling over 100,000 daily active requests.
- **Optimized complex SQL queries** and implemented Redis caching, reducing database response times by **25%**.
- **Established a CI/CD pipeline** using Jenkins and Docker, reducing deployment errors and cutting delivery time by half.
- **Mentored 4 junior developers**, conducting code reviews to ensure adherence to clean code principles and SOLID design patterns.

Java Software Engineer | Company Name, Location Month Year – Month Year

- **Developed backend features** for a high-traffic e-commerce platform using **Java 11, Spring Data JPA, and Hibernate**.
- **Integrated third-party payment gateways** (Stripe, PayPal) resulting in a seamless checkout experience and a 12% increase in successful transactions.
- **Wrote automated unit and integration tests** using JUnit and Mockito, increasing total test coverage from 65% to **88%**.
- **Participated in daily Agile stand-ups**, sprint planning, and retrospectives to ensure on-time delivery of sprint goals.

KEY PROJECTS

Cloud-Based Inventory Management System | *Java 17, Spring Boot, React, AWS*

- Built a full-stack inventory management tool tracking over 50,000 product SKUs in real-time.
- Deployed the application infrastructure on **AWS (EC2 and RDS)** using Docker containers for seamless environment replication.

Distributed Chat Application | *Java, Spring Boot, WebSockets, MongoDB*

- Developed a real-time chat application utilizing WebSockets for low-latency messaging.
- Implemented MongoDB to handle horizontal scaling of unstructured message history data.

EDUCATION

Bachelor of Science in Computer Science | University Name, Location (Graduation Year)

CERTIFICATIONS

- Oracle Certified Professional: Java SE Programmer
- AWS Certified Developer – Associate
